

# SAFETY DATA SHEET

## *HiClean*-HAND FOAM SANITISER incorporating STERiZAR

Page 1  
Issued: 02/07/10  
Revision No: 1

### 1. Identification of the substance/preparation and of the company/undertaking

**Product name:** HICLEAN HAND FOAM SANITISER

**Recommended use:** For hand cleaning and sanitisation. Ideal for infection control in prevention and control of bacteria.

**Manufacturer:**

Marketed by:

**Medinostic Health Care (Pvt) Ltd.**

B-18, S.I.T.E., Karachi.

www.medinostic.com

Manufactured by:

**Creative Supply Solutions Ltd.**

Malvern Suite, South Wing, Earl Mill, Dowry Street

Oldham, Manchester, UK-OL8 2PFOL8

### 2. Hazards identification

**Main hazards:** No significant hazard.

### 3. Composition/information on ingredients

**Hazardous ingredients:** The product is an aqueous blend of polybiguanide, cationic, non-ionic and amphoteric surfactants; the active content is <5% and at this level a hazard classification is not required.

### 4. First-aid measures

**Skin contact:** As a precaution, wash with soap and water. Seek medical advice if irritation develops.

**Eye contact:** May cause irritation to eyes. In case of contact, rinse immediately with plenty of water for at least 15 minutes and seek medical advice if irritation persists.

**Ingestion:** May sterilise gut. Drink copious quantities of water or milk, do not induce vomiting. Seek medical advice. Show this safety data sheet to a doctor.

**Advice to doctor:** Treat symptomatically.

**Inhalation:** If product is sprayed, irritation of respiratory tract may be caused in some individuals as a result of breathing in high levels of spray mist. If affected, remove to fresh air and seek medical advice if irritation persists.

### 5. Fire-fighting measures

**Extinguishing media:** Not combustible. Suitable extinguishing media for the surrounding fire should be used. Use water spray to cool containers.

**Exposure hazards:** In combustion may emit toxic fumes of carbon monoxide, carbon dioxide, oxides of nitrogen and sodium.

**Protection of fire-fighters:** Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes.

Issued: 02/07/10  
Revision No: 1

### 6. Accidental release measures

**Personal precautions:** Refer to section 8 of SDS for personal protection details. Turn leaking containers leak-side up to prevent the escape of liquid.

**Environmental precautions:** Contain the spillage using sufficient appropriate absorbent material

**Clean-up procedures:** Small spillages: wash to drain with plenty of water. Large spillages: contain with sand or earth, remove to a suitable labelled salvage container for disposal by an appropriate method.

### 7. Handling and storage

**Handling requirements:** Handle in accordance with standard good housekeeping procedures. Avoid contact with eyes.

**Storage conditions:** Store upright in original, sealed containers. Store above 0°C. Protect from frost. Do not mix with other cleaning materials. Keep container closed when not in use.

### 8. Exposure controls/personal protection

**Exposure standards:** None set for any of the ingredients present.

**Engineering measures:** No particular engineering measures are necessary.

**Respiratory protection:** Not required.

**Hand protection:** Protective gloves.

**Eye protection:** Safety glasses/goggles.

**Skin protection:** Overalls.

### 9. Physical and chemical properties

**State:** Liquid

**Appearance:** Clear, colourless

**Odour:** Mild

**Solubility in water:** Soluble

**PH:** 6 – 8

**Density:** 1.01

**Flammability (explosive) limits:** Non-flammable

### 10. Stability and reactivity

**Stability:** Stable under normal conditions.

**Conditions to avoid:** Excessive heat or cold.

**Materials to avoid:** Oxidising agents, strong acids, strong bases.

**Hazardous decomposition products:** Carbon dioxide, carbon monoxide, hydrogen chloride, oxides of nitrogen.

**Hazardous reactions:** None known. .

### 11. Toxicological information

**Routes of exposure:** Refer to section 4 of SDS for routes of exposure and corresponding symptoms.

Issued: 02/07/10  
Revision No: 1

### 12. Ecological information

**Mobility:** Soluble in water.

**Persistence and Biodegradability:** Biodegradable.

**Bioaccumulative potential:** Predicted to have low potential for bioaccumulation. Cationic surfactants are regarded as being effectively removed in waste water treatment processes by complex formation and adsorption.

**Other adverse effects:** May be hazardous to aquatic organisms due to surface active effects.

### 13. Disposal considerations

**Disposal operations:** Contact a licensed waste disposal company.

**NB:** The user's attention is drawn to the possible existence of regional or national regulations regarding disposal.

### 14. Transport information

**ADR / RID: UN number:** Not applicable

**IMDG / IMO: UN number:** Not applicable

**IATA / ICAO: UN number:** Not applicable

The product is not classified as dangerous within the meaning of the Transport Regulations.

Only transport in original containers in upright position.

Never remove containers from cardboard containers before transporting.

Unless containers are palletised never transport stacked more than 2 high.

### 15. Regulatory information

Hazard symbols: None

Risk phrases: None

Safety phrases:

- S2: Keep out of the reach of children.
- S26: In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- S46: If swallowed, seek medical advice immediately and show this container or label.

Note: The regulatory information given above only indicates the principal regulations specifically applicable to the product described in the safety data sheet. The user's attention is drawn to the possible existence of additional user's provisions which complete these regulations. Refer to all applicable national, international and local regulations or provisions.

### 16. Other information

Always use in accordance with manufacturer's directions.

This safety data sheet is prepared in accordance with Regulation (EC) No 1907/2006.
